President’s Message
Charity Bryan, University of Louisiana at Lafayette

Greetings LAHPERD members! It is that time of year again—back to school and back in the swing of things. As we kick off the fall season, I hope we are all looking forward to football season, cooler weather, and, of course, the LAHPERD Convention.

Your LAHPERD Board of Directors has prepared a phenomenal Convention program for 2012. Our pre-Convention workshop will take place on Wednesday, October 31, at Episcopal High School in Baton Rouge. Artie Kangis is our workshop leader, and the theme is “K-12 High Yield Physical Education (HYPE) Workshop.” This all-day workshop (9 a.m. - 5 p.m.) will provide participants with games, activities, and teaching strategies aligned to the Louisiana Physical Education Content Standards. Participants will see, learn, and experience how to implement a standards-based K-12 curriculum along with practical methods for assessment and grading. This motivational and action-packed workshop is guaranteed to get you moving and bring a smile to your face! Artie is an outstanding health and physical education professional. He is the president and founder of Great Activities Publishing Company and has served as the senior administrator for health and physical education for Wake County Public Schools in Raleigh, North Carolina.

We will hold the Convention Thursday, November 1, and Friday, November 2, at Grove Plaza in Baton Rouge. The program is packed with activity sessions and many guest speakers from around the Southern District AAHPERD. The convention will feature Dr. Irene Guelin, AAHPERD president, who will deliver our general session keynote address as well as two other sessions throughout the Convention. The general session keynote is entitled, “Creating New Habits to Geaux the Extra Mile.”

Dr. Donna Dunaway, Southern District AAHPERD executive director, and Dr. Donna Hester, Southern District AAHPERD past-president, are presenting a session for our future professionals entitled, “Future Professionals . . . Future Leaders,” where our future professionals can learn about their leadership styles and potential. The second, “Childhood Disease Prevention through Physical Education and Nutrition Education,” addresses Healthy Eating Active Living (HEAL), an innovative elementary physical education curriculum that improves fitness levels and nutrition knowledge.

Dr. Sandra Sims, Southern District AAHPERD president-elect, will present, “Choosing Appropriate Practices for Middle School Physical Education Classes,” where participants will have the opportunity to view and discuss inappropriate practices that occur in physical education classes and a demonstration of more appropriate practices that address skill and fitness development of middle school students. This session is based on NASPE’s Appropriate Instructional Practice Guidelines for Middle School Physical Education. Dr. Sims will also present, “Advocacy and The Future Professional: A Great Combination?” From this session, participants will understand the important role the future professional has as an advocate, and each participant will leave the session with a personal advocacy plan of action.

Dr. Pat Cooper, Lafayette Parish school superintendent, will present, “Coordinated School Health: The Real Education Reform.” In addition, Michael Comeaux from the Louisiana Department of Education will present, “Act 54 - Measuring Student Growth for Non-Tested Grades and Subjects.” Act 54 calls for measures of student growth to comprise at least 50 percent of an educator evaluations. Participants will be able to identify student learning target areas for health and physical education and learn how to establish growth measures for health, physical fitness, and lifetime motor skills.

As you can see, your LAHPERD Board of Directors has fully implemented the 2012 theme of “Geaux the Extra Mile.” The 2012 Convention will have over 96 sessions, the Awards Luncheon, Thursday Night Geaux Party, awesome exhibitors, and many other events you will NOT want to miss. Join us for the 2012 Convention, and take your professional development to the next level as we “Geaux the Extra Mile.”
November 1st
12:00-2:30
Mississippi/Delta Queen
